GNI, St. Paul, Minnesota, owns mineral and nonmineral lands on the Mesabi Iron Range of Minnesota. Income is mainly derived from royalties on iron ore minerals (principally taconite) mined from these properties that are under lease to major steel producers. As previously reported, the termination date of the Trust of Great Northern Iron Ore Properties is April 6, 2015. Accordingly, we remind certificate holders that there will be remaining only two (2) more regular quarterly distributions declared (one in 2014 and one in 2015) before the termination date of the Trust on April 6, 2015. While there will be some income allocated to the second quarter of 2015 (representing six days of business through April 6, 2015), it is expected that this amount will be nominal and will likely be included with the final distribution to certificate holders that will be made subsequent to the termination date and upon completion of the wind-down process and final accounting. The final distribution will generally consist of the sum of the Trust's net monies (essentially, total assets less liabilities and less properties) remaining in the hands of the Trustees (after paying and providing for all expenses and obligations incurred through the Trust's termination and wind-down process), and the balance in the Principal Charges account, all of which are subject to the final accounting and approval of the Ramsey County District Court. Upon Trust termination, the shares will be cancelled and have no further value other than the final distribution. All other Trust properties will be conveyed to the reversioner upon the completion of the wind-down process without further payment or remuneration to the certificate holders. More information on the termination of the Trust is available on the Trust's Web site at [www.gniop.com](http://www.gniop.com) or within the Trust's Annual Report, which is also available on the Trust's Web site or may be requested by calling the Trust office at the telephone number listed above.
